

Anna Williams is an Accreditation Supervisor with the American Association for Laboratory Accreditation and has worked with the Association since September 2015. She supports the day-to-day operations of accreditation by assisting clients in obtaining and maintaining accreditation in the chemical and biological fields of testing. Anna serves as the primary staff point of contact for laboratories seeking accreditation for cannabis testing, as well as A2LA's animal health laboratory accreditation programs. In addition to working directly with customers, regulators, and other stakeholders, she supervises personnel working with cannabis and clinical laboratories. Anna has been a staff-approved lead assessor since December 2016 and performs oversights of new and veteran assessors. She also serves on external industry committees, including ASTM, AOAC, ACIL, and Emerald Scientific.

Ms. Williams obtained a Bachelor of Science degree in Biology, as well as minors in psychology and Sociology, from Grove City College in Grove City, Pennsylvania.
