

Dr. Kristofer Marsh believes in the power of cannabis to bring positive change to people's lives. A formally trained materials research scientist and published author in several peer-reviewed journals, Kris serves as Lab Director at The Niva Labs, a cannabis testing lab specializing in contract research in Los Angeles, CA. Prior to joining Niva, Dr. Marsh worked at Steep Hill in Berkeley, CA during the 2018 regulatory transition and helped bring laboratory operations into compliance. He also worked as Lab Director at EVIO Labs where he doubled their testing capacity. Outside of the lab, Kris enjoys listening to music, hiking, and riding his bike along Venice Beach. His favorite cannabinoid is THCV.

Kris earned his B.S. in chemistry from Towson University and his Ph.D. in materials chemistry from UCLA.
