Key, Preliminary Findings in Radicle Science's ACES Study

Speaker: Dr. Jeffrey Chen, CEO, Radicle Science

Abstract: Dr. Jeff Chen, Cofounder and CEO of Radicle Science and former founder and Exec Director of the UCLA Cannabis Research Initiative, will present on the preliminary findings from Radicle Science's ACES (Advancing CBD Education & Science) study, history's largest clinical trial on CBD. ACES was a four-week IRB approved randomized controlled trial involving nearly 3,000 participants assigned to one of 13 commercially available CBD products or a waitlist control, tracking validated health outcomes measures across well-being, quality of life, pain, anxiety, and sleep quality.
